

# Services

Time is money. Do you need spare parts, solutions to your machine-related problems, or answers to your questions about a product changeover conversion?

When you buy a machine from us, you are never alone. We make sure to provide you with training and instructions. Our numerous relationships with manufacturers enable us to deliver spare parts and accessories at any time.

Our services:

- Consulting
- Training and instruction
- Supervision and support
- Maintenance contracts
- Technical accessories for sewing technology and automation solutions (e.g., special devices and binders, custom-manufactured sewing frames and sewing brackets for your products, etc.)
- Spare parts supply
